INFORMATION FOR SPONSORS

AKADEMY

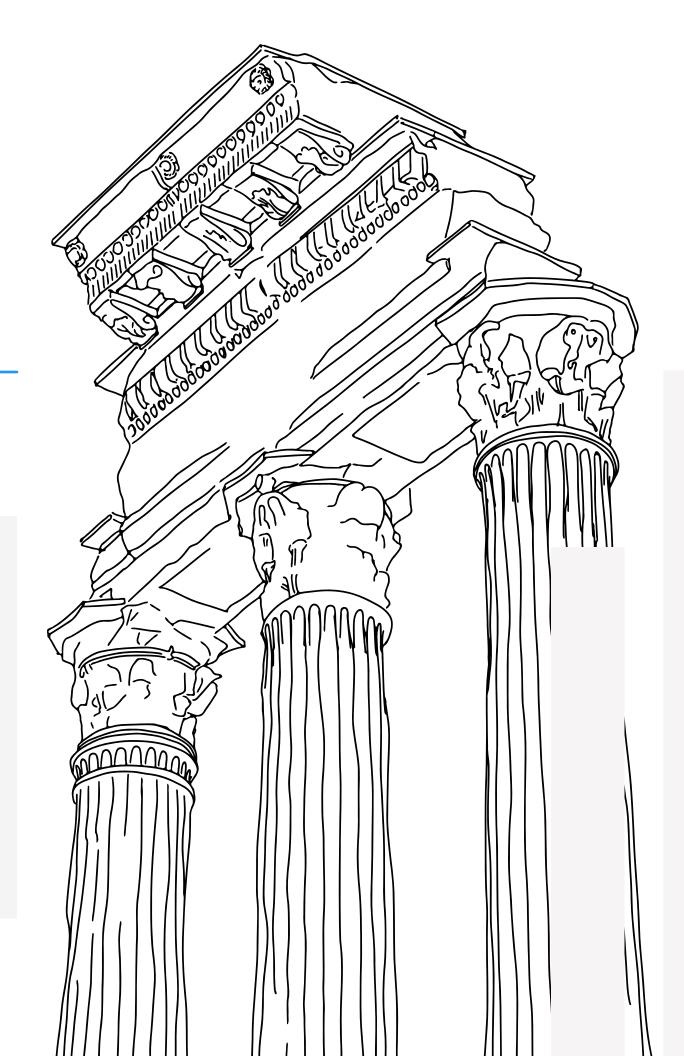

Akademy is the annual world summit of KDE. It is a free, non-commercial event organized by the KDE Community.

Developers, translators, designers, and other contributors meet in one place for talks program, meetings, and hacking on the different projects that are part of KDE.

Our attendees numbers keep growing year over year. Before COVID-related lockdowns, we reached beyond 100 people.

During 2020 and 2021 Akademy moved to an online model which saw an increase in online engagement during the conference. In 2022 we combined online and live audiences, reaching hundreds of people.

The same model will apply during Akademy 2023, and as things gradually return to normal, we expect to increase the number of attendees moving forward. This is going to be a big year for Akademy!

"A world in which everyone has control over their digital life and enjoys freedom and privacy."
